

Today, the USDA is in the process of conducting economic analyses as well as a comprehensive review of the comments submitted on the proposed rule.

H.R. 2112 would stop the USDA in its tracks and prevent it from completing its year of work on GIPSA.

Two of our Nation's largest member organizations who work to support farmers, ranchers and producers are opposed to the provision which would cut off funding for the GIPSA rule—the National Farmers Union and the Farm Bureau.

Like me, these Iowa members and the national organizations believe that this is an issue under the jurisdiction of the authorizing committee, not the appropriating committee, and that regardless of which side of the regulation you may fall, that the comment review and economic analyses deserve completion.

NFU President Roger Johnson said in a recent statement: "I urge that funds for the enforcement of the GIPSA rule be reinstated in future versions of the agriculture appropriations bill."

The American Farm Bureau Federation sent a letter to my colleague, Congresswoman KAPTUR, on May 31, 2011, the day of the full committee markup, that stated: "We oppose language to preclude USDA from reviewing the comments and completing their economic analysis and are strongly opposed to any action that would stop work on that [GIPSA] rule."

However, appropriators ignored this call to action, and instead chose to move forward on behalf of large processors.

The rulemaking process on the GIPSA rule was started with the issuance of the draft rule on June 22, 2010—nearly one year ago and more than 60,000 comments were submitted on the GIPSA rule docket. To end the process now would equate to an unfortunate waste of government resources.

Thirty years ago there were 1.3 million beef cattle operations. Today there are 740,000. In 1980, there were 660,000 hog farms. Today there are 67,000. Last year alone, approximately 2,300 additional hog producers went out of business.

On behalf of producers and competition in our marketplace, I urge my colleagues to oppose defunding the GIPSA rule, and allow the USDA to complete their work and review on this issue.

Mr. SAM JOHNSON of Texas. Mr. Speaker, I rise today to honor an extraordinary group of young men and women who have been chosen as future leaders in our armed forces by the prestigious United States service academies. It is a privilege to send such a fine group from the third district of Texas to pursue a world-class education and serve our Nation.

BERG CONGRATULATES NORTH
DAKOTAN DR. DORI CARLSON
FOR BECOMING FIRST WOMAN
TO SERVE AS PRESIDENT OF
THE AMERICAN OPTOMETRIC AS-
SOCIATION

HON. RICK BERG

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, June 16, 2011

Mr. BERG. Mr. Speaker, today I rise to congratulate Dr. Dori Carlson, who will soon be sworn in as the 90th President of the American Optometric Association, the first woman to ever serve in this prestigious position, at their 114th annual meeting in Salt Lake City, Utah, on June 18, 2011.

The American Optometric Association represents approximately 36,000 doctors of optometry, optometry students and optometric professionals and is centered on improving the quality and availability of eye and vision care. Doctors of optometry provide two-thirds of all primary eye care in the United States; optometrists serve patients in nearly 6,500 communities across the country and in 3,500 of those communities are the only eye doctors.

Dr. Carlson is a 1989 graduate of the Pacific University College of Optometry. Following graduation from optometry school, she completed a residency in hospital-based rehabilitative optometry at the American Lake and Seattle Veterans Affairs Medical Centers in Tacoma and Seattle, Washington. In 1994, she was honored as the North Dakota Young Optometrist of the Year and as the Optometrist of the Year in 2003.

She is a founding member of InfantSEE, a no-cost public health program developed to provide professional eye care for infants nationwide. Through this program, great strides are being made to ensure that potential eye and vision problems are detected early. Infant eye assessments have been available in North Dakota since the InfantSEE program launched in 2005, and Dr. Carlson has made it her mission to see as many infants as she can.

Dr. Carlson is in private practice in Park River and Grafton, North Dakota, where she provides primary care to rural North Dakotans of all ages. Her advocacy on behalf of optometrists and their patients has earned her the respect of her colleagues, and it is a high honor to be recognized by her peers to lead the profession of optometry in the coming year.

Today I join her family, friends and colleagues in congratulating her on this achieve-

ment and wishing her the best of luck in this endeavor.
